OBJECTIVE

To obtain a full time Software Engineering opportunity in a technological and innovative environment

EDUCATION

Iowa State University, Ames, IA

Bachelor of Science, Software Engineering (Expected Graduation - May 2019)

GPA: 3.42

WORK EXPERIENCE

Cerner Solutions Inc., Kansas City, MO – *Software Intern* (Summer 2018)

- Enhanced proficiency in programming skills (React, SQL, Redux, NodeJS)
- Gained understanding of authentication and security of applications
- Worked with a team of full-time developers
- Saw code that I developed deployed to applications used in production

Buildertrend Solutions Inc., Omaha, NE – *Software Development Intern* (Summer 2017)

- Learned new programming skills (KnockoutJS, C#, .NET)
- Gained understanding of Git and source control in a large group
- Envisioned a long-term project and achieved the end goal with a steady process
- Exchanged ideas in a group setting with both peers and mentors

Dyton Media, Cedar Falls, IA – *Part-Time Programmer* (Summer 2016)

- Created interactive quizzes and tests for corporate companies
- Followed a detailed protocol in order to create a complete project
- Learned important skills from experienced workers in the programming field
